## **DETAILED ACTION**

### *Specification*

1. The following informalities in the claims are noted: (A) in claim 6, on line 2, a semi-colon should be inserted after "purpose"; (B) in claim 9, on line 6, "holder" should read --holders--; and (C) in claim 20, on line 11, "said" (both second and third occurrences) should be changed to read --each--.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 6 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Michael. Michael discloses a composite holding device having all the claimed features including a holder body (constituted by section A) for holding a first medium (constituted by pen X) to serve a prescribed purpose, and a cap (constituted by section B) for detachably covering the holder body A (note Fig. 1), wherein the cap B comprises a casing for accommodating a plurality of holders (constituted by pens X-1 and X-2), each holder holding a second medium to serve a purpose different from and similar to that of the first medium X, a supporting section (constituted by pen blocks 15) for supporting the holders to be movable in an axial direction in the casing (note Figs. 1 and 2), a feed mechanism (constituted by sliding frame members 12), provided in the casing, for selectively advancing one of the plurality of holders (note Figs. 1 and 2), and a manipulating mechanism (constituted by knob 20') for operating the feed mechanism 12 being adapted to project a tip of one of the plurality of holders X-1 and X-2 out of a fore end opening at a tip of

Art Unit: 3751

the casing (note Fig. 2) and make usable the tip of one of the plurality of holders X-1 and X-2. With respect to claim 10, Michael also discloses that the media is ink (note lines 4-7 on page 1).

***Allowable Subject Matter***

4. Claims 1, 4, 5, 11-23 and 25-27 are allowed.
5. Claims 7, 8 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if claims 7 and 8 are rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments with respect to claims 6 and 10 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
